Mother Suffered Six Years with Eczema—Baby Cured of Heat Rash—Father, Mother, and Child Have Scalp and Hair Troubles.

ALL GIVE THANKS TO CUTICURA REMEDIES

"My wife had eczema for five or six years. It was on her face and would come and go. We had read so much about Cuticura Remedies that we thought we would give them a trial. We did so, and it has now been about four years, and she has never had a sign of eczema since. She also used Cuticura for her scalp and hair. She had very thin hair and Cuticura helped her hair greatly. I myself used Cuticura Soap and Cuticura Ointment some time ago for falling hair. I now have a very heavy head of hair and it does not fall out. We used Cuticura Remedies for our baby, who was nearly bald when young. She has very nice hair now. She is very fleshy, and we had so much trouble with heat that we would bathe her with Cuticura Soap and then apply Cuticura Ointment. It would dry the heat up so much quicker than anything else. We give thanks to the Cuticura Remedies. Mr. H. B. Springmire, 323 So. Capitol Street, Iowa City, Ia., July 16, 1905 and Sept. 16, 1906."

Her References.

Not long ago a Philadelphia lady was suddenly deserted by the cook and advertised for another, stipulating that applicants must furnish good references. A middle aged colored woman was among those who sought the place, and when asked for her references she said, "Deed, Ah done tore up dem references, lady." "Don't you know," the lady asked, "that if you don't bring any references with you people will suspect that you are not a good servant? I am surprised that you should destroy the references a former employer was kind enough to give you." "Yassum; maybe dat's so," the applicant replied. "Folks can 'spect Ah ain't er good servant, but yod' know Ah was crazy ef Ah'd brung dem references."—Philadelphia Record.

Very Useful.

"He's a very good horse, but thin," remarked the dealer who was trying to sell the animal. "I sometimes have to tie a knot in his tail to prevent him from slipping through his collar. But that's no matter. Occasionally, too, I have to hang a sack over him to keep the hay inside of him from getting sunburned. He's a good horse, but thin. My wife and her mother took him for a drive the other day, and they foolishly let him trot. When he trotted the rattling of his bones so startled him that he bolted, pitched my wife and mother-in-law out and killed the old woman. Oh, he's a good horse if thin, but he's very useful."—Liverpool Mercury.
